DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions that are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, drawn to conditionally lethal molecules.

Group II, claim(s) 5-6, drawn to nucleic acids encoding conditionally lethal molecules.

Group III, claim(s) 7-9, drawn to gene therapy vectors.

Group IV, claim(s) 10, drawn to a transgenic animal.

Group V, claim(s) 11, drawn to a method of making a transgenic animal.

Group VI, claim(s) 12-16, drawn to methods of treating a disease (atherosclerosis).

Group VII, claim(s) 17-20, drawn to methods of inducing tumor regression.

Group VIII, claim(s) 21-22, drawn to methods of reducing PSA levels.

Group IX, claim(s) 23-24, drawn to methods of affecting the rate of cell proliferation.

Group X, claim(s) 25-26, drawn to methods of inducing apoptosis.

Group XI, claim(s) 27, drawn to a method of determining the biological role of a cell type.

The inventions listed as Groups I-XI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Art Unit: 1645

Pursuant to 37 C.F.R. 1.475(d), the ISA/US considers that where multiple products and processes are claimed, the main invention shall consist of the first invention of the category first mentioned in the claims and the first recited invention of each of the other categories related thereto. Accordingly, the main invention (Group I) comprises the first-recited product, conditionally lethal molecules. Further pursuant to 37 C.F.R. 1.475(d), the ISA/US considers that any feature which the subsequently recited products and methods share with the main invention does not constitute a special technical feature within the meaning of PCT rule 13.2 and that each of such products and methods accordingly defines a separate invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
